Adding Accented Spanish Characters in Mac OS

This list is organized by **Accent** type. The sample shows a letter with that accent, and the **Notes** present any special comments about using that accent.

For the Template, the **symbol "V" means any vowel.** The format is to hold the first two keys down simultaneously, release, then type the vowel you wish to be accented.

Macintosh Option Codes for Accented Letters

ACCENT	SAMPLE	TEMPLATE	NOTES
Aguda	ó Ó	**Option+E, V**	
Grave	ò Ò	**Option+`, V**	
Tilde	ñ Ñ	**Option+N, V**	Only works with "**n,N,o,O,a,A**"
Diéresis	ö Ö	**Option+U, V**	

Example 1: To input the letter **ó,** hold down the **Option** key, then the **E** key. Release both keys then type lowercase **o**.

Example 2: To input the letter **Ó,** hold down the **Option** key, then the **E** key. Release both keys then type capital **O**.
